

Cut and Stack Labels

Overview:

Cut and stack labels are a traditional yet highly effective labeling solution used across a wide range of product categories, especially in high-speed bottling or canning packaging operations. At Willowpack, these labels are printed using offset technology on 60lb coated one-side (C1S) paper stock, offering crisp graphics and consistent print quality for large-volume applications. Unlike roll labels, cut and stack labels are delivered as individual sheets or bundles that are stacked and fed into automated labeling equipment, making them ideal for glass bottles, cans, jars, and rigid containers—common in the food, beverage, and household goods industries.

Materials

60lb Single-Side Coated Paper

 (Not safe for food contact)

Lightweight 60lb paper labels keep costs low without sacrificing quality or shelf appeal. Coated on one side for durability and vibrancy, our 60lb paper label stock is ideal for wrapping aluminum cans, glass jars and bottles, and for wine and spirits packaging.

Printing Options

Standard CMYK
All labels are printed using vibrant, high-resolution 4-color CMYK as our standard. This delivers exceptional shelf appeal and works for most packaging needs.
